

Policy

QUALITY, ENVIRONMENTAL, AND HEALTH AND SAFETY POLICY

At More Marine d.o.o., we are dedicated to continuous improvement across our management system to achieve the best results. Our Quality, Environmental, and Health and Safety Policy encompasses the following key priorities:

Quality and Customer Satisfaction: Our top priority is to continuously improve our business processes and ensure customer satisfaction. All our employees are actively involved in achieving this goal.

Sustainable Practices: We organize our business operations in line with sustainable development principles. Our objective is to use energy efficiently and minimize our environmental impact.

Environmental Protection: We are dedicated to enhancing our relationship with the environment, setting environmental protection goals, and preventing pollution.

Health and Safety: Our commitment extends to preserving health and safety at work and fostering awareness about preventive measures to protect health and safety.

We pledge to:

- Compliance:* Continuously meet legal, regulatory, and customer requirements.
- Customer Confidence:* Earn customer trust by consistently delivering and maintaining expected quality.
- Skilled Workforce:* Employ skilled and motivated staff committed to continuous development.
- Technology Enhancement:* Continuously upgrade our technological equipment.
- Partnership Relations:* Cultivate strong partnerships with customers and suppliers.
- Environmental Responsibility:* Take steps to prevent and reduce environmental pollution, recognize environmental aspects, and minimize resource consumption.
- Social Responsibility:* Engage in socially responsible business practices with the local community.
- Employee Awareness:* Promote environmental awareness among all employees.
- Health and Safety Training:* Educate our staff about occupational health and safety management.
- Preventive Measures:* Implement preventive actions to avert workplace injuries and occupational diseases.
- Worker Participation:* Ensure workers and their representatives are involved in identifying and mitigating hazards and health risks at workplaces.
- System Improvement:* Apply and continually enhance the effectiveness of our management system.

To achieve these goals, we have established an integrated management system in line with HRN EN ISO 9001:2015, HRN EN ISO 14001:2015, and HRN ISO 45001:2018 requirements. All More Marine d.o.o. employees are expected to actively participate in implementing and improving the management system.
